EXPERIENCE

Sr. Information System Security Officer
BAE Systems – Nashua, NH

March 2025 – Present

Information System Security Officer
BAE Systems – Nashua, NH

October 2023 – March 2025

- Responsible for conducting thorough security audits, assessments, and reports to identify vulnerabilities.
- Successfully prepared classified information systems for DCSA Assessment & Authorization inspections.
- Collaborated with cross-functional teams to integrate security measures into all phases of system deployment and development.
- Ensured regulatory and policy system compliance on physical and virtual Windows (XP, 7, 10, 11 Server 2016, Server 2019), Linux (RHEL 6, 7, 8), and ESXi (6.5, 7.5) hosts, as well as Cisco networking infrastructure.
- Evaluated and reported Nessus, SCAP, and STIG vulnerability findings.
- Responsible for the physical hardware management of all classified assets within responsible IS' authorization boundary to ensure proper data retention, classification, sanitization, or destruction.
- Strict adherence to government and customer mandated security standards within applicable FISMA, WSC, NISPOM, NIST, and RMF guidelines and requirements.

System Administrator
Microspec Corporation – Peterborough, NH

February 2023 – October 2023

- Identified, diagnosed, and resolved hardware, software, and network related issues.
- Monitored system performance, network traffic, and server health to identify and resolve issues proactively.
- Managed and maintained Active Directory and Group Policy orchestration and patch deployment (PDQInventory, PDQDeploy).
- Updated Arista NG Firewall configuration to improve overall security posture of organization.
- Performed phishing simulations and subsequent training for end-user security awareness.

Aviation Ordnance Systems Technician
United States Marine Corps – MCBH, HI

September 2018 – July 2022

- Lead ordnance evolutions ensuring the safe handling, assembly, transportation, and storage of all assets.
- Maintained 100% inventory accuracy and accountability of all ammunition and explosives managed by unit.
- Supervised and mentored Marines in progression of the team leader role and every day operations.
- Ensured high quality maintenance was performed on weapons systems.
- Oversaw proper execution and documentation of related testing procedures.

EDUCATION & CERTIFICATIONS

Master's of Science – Computer Science (in progress)
Fitchburg State University
Anticipated Graduation date: Sep. 2027

Bachelor's of Science – Cybersecurity
Southern New Hampshire University

Security+
CompTIA

Lean Six Sigma Yellow Belt
MCBH, HI

TECHNICAL SKILLS

- **Operating Systems**
  - **Windows:** 11, 10, 8, 7, XP, Server 2016, 2019
  - **Linux:** Ubuntu, RedHat Enterprise (6, 7, 8), Kali
- **Cybersecurity / Information Assurance**
  - **Vulnerability Management:** Nessus, OpenVAS, SCAP & STIG
  - **SIEM**: Splunk Enterprise
  - **Regulatory Compliance**: FISMA, NISPOM, NIST, RMF
  - **Antivirus**: Trellix (McAfee), Sophos, Webroot
  - **Network Analysis**: Wireshark, tcpdump, Nmap
  - **Reverse Engineering**: Ghidra, gdb, AFL
- **IT Infrastructure**
  - **Firewall:** Arista NG
  - **Ticketing:** ServiceNow, Spiceworks
  - **Virtualization:** vSphere (VMWare, ESXi), VirtualBox
  - **Domain Management:** Active Directory, Group Policy
  - **Networking:** Cisco (Switching, Routing, iOS)
- **Scripting & Programming**
  - Powershell, Python
  - C++, Assembly
